

A unique investment opportunity

Invest in ASAFI, a High-Growth UAE-Based Agricultural Commodity Trader

- Fixed coupon: 12% p.a.
- Minimum investment: \$25,000
- Payouts: monthly
- Maturity: 12 months
- Exit before maturity: ATME secondary market within the investors pool

ASAFI is a Dubai-based agribusiness group specializing in the trade of agricultural commodities across Europe, the Middle East, and Africa.

ASAFI is raising capital through trade finance to expand its operations in key destination markets. ASAFI General Trading LLC will issue fixed-rate debt tokens, using the proceeds to fund transactions with trusted clients worldwide.

ASAFI: execution-driven growth in commodities trading

Focused Product Range: ASAFI specializes in trading a targeted portfolio of non-perishable agricultural commodities:

- Grains: Wheat, Barley, Corn
- Legumes: Peas, Chickpeas, Lentils
- Oilseeds: Sunflower, Soy, Rapeseed
- Vegetable Oils: Sunflower Oil, Palm Oil
- Green Coffee Beans

Diversified Market Presence: ASAFI serves a broad mix of trusted clients across Asia, the Middle East, and Africa, partnering with top-tier local and global buyers.

Experienced Team: The company is powered by 25 professionals with a combined 100+ years of experience in agricultural commodities trading. The team is well regarded for strong execution and deep market insight, maintaining performance even in volatile conditions.

Operational performance

Cash Cycle: 45–60 days, enabling efficient capital turnover

Profit Margins: Stable between 4–10%, driven by consistently profitable trades

Risk management approach

Credit insurance: Allianz insures 90% of each invoice, with claims settled within 180 days — significantly reducing ASAFI’s operational risk.

Additional Risk Controls:

- Currency hedging
- Strategic position-taking
- Secure payment methods (Letters of Credit and Cash Against Documents)

Investors protection and security measures

Regulated platform. ATME is a licensed digital asset exchange regulated by the Central Bank of Bahrain (CBB). It operates in full compliance with KYC, AML, and stringent risk management standards. Regular external audits ensure transparency, security, and operational integrity. All tokens and blockchain transactions are recorded as immutable digital entries on ATME’s proprietary blockchain platform.

Token issuance. Token creation, management, and execution are fully managed through the ATME platform.

Legal status of tokens. All tokens issued by ATME are legally binding, tradable, and fungible securities .

CBB Oversight: Each token issuance is reviewed and approved by the Central Bank of Bahrain.

Insurance: 90% of trade finance receivables are insured by Allianz materially reducing capital redemption risk for the investors.

Quarterly Reporting: Key metrics dashboard and audited financials published via ATME data room.
